GEEKS FOR GEEKS STUDENT CHAPTER VITAP

club member | Oct 2023 – May 2024

- Learned programming languages like Java and Python to advanced level and participated in contests.

SPM WEB (UNITED LATINO STUDENTS ASSOCIATION)

Member | Sep 2022 – Jun 2023

- Completed WEB DEVELOPMENT as a CSI SPM WEB Member

CSI CHAPTER VITAP

Club member | Sep 2022 – Jun 2023

- Learned Programming languages like Java and Python to intermediate level and participated in contests.

PROJECTS

YUV PERSONAL CHATBOT

Yuv is a responsive AI chatbot (HTML/CSS/JS) with voice/text input, theme switching, and local storage for user data. It integrates DuckDuckGo for web searches and offers tools like calculator, weather, jokes, notes, and reminders in a clean interface.

WEATHER APPLICATION

Weather App This Weather App is a simple web application built using Node.js, Express, and EJS that allows users to search for the current weather conditions in any city. The app dynamically fetches weather data from the Weatherstack API and displays it alongside a beautiful background image of the city's top sights sourced from the Unsplash API.

ACHIEVEMENTS

Indian Talent Olympiad: AP State 6th rank in 2019.
